

TREE CARE COMPANY

TREE REMOVAL

- 7 tree(s) throughout your property will be removed.
- The property owner is responsible for ensuring that all vehicles, dumpsters, etc. are removed from the designated work zone at least 24 hours prior to the scheduled start time.
- We will work with the local power company to drop power lines, if needed.
- Once the tree is removed, we will flush or grind the stump, upon request, at an additional charge.
- We provide a complete clean-up of the work zone and haul all stump(s)/debris for proper disposal.
- Additional Removal: If there is excessive material onsite, aside from dirt or debris, or additional branches need to be removed, there will be an additional fee for removal. The property owner will receive an estimate for the costs prior to billing and removal.
- Once work has finished, we will contact the power company to put the power lines back up

STUMP REMOVAL AND GRINDING

- 7 stump(s) throughout your property will be removed.
- The property owner is responsible for ensuring that all vehicles, dumpsters, etc. are removed from the designated work zone at least 24 hours prior to the scheduled start time.
- We will use a stump grinder to remove the stump.
- We provide a complete clean-up of the work zone and haul all stump(s)/debris for proper disposal.
- Mulch can be hauled away and filled with top soil, upon request, at an additional charge.
- Additional Removal: If there is excessive material onsite, aside from dirt or debris, or additional branches need to be removed, there will be an additional fee for removal. The property owner will receive an estimate for the costs prior to billing and removal.

EXTRAS

- This proposal is based on the work being completed during normal business hours. Additional charges may be added for special accommodations.
- The property owner is responsible for ensuring that all vehicles, dumpsters, etc. are removed from the designated work zone at least 24 hours prior to the scheduled start time.
- Rescheduling: The property owner/representative is responsible to inform all service providers that the work zone will not be accessible until after we complete the project. If rescheduling is necessary, it is also their responsibility to notify the service providers.

WHY CHOOSE US?

We are a premier tree service company locally-owned and operated and have been in the tree care business for over 27 years. Eric Cartwright's Custom Tree Care is proud to offer expert service to both residential and commercial clients. No job is too small or too large. You can trust us to handle your concerns and needs with the utmost respect and care. Our customers satisfaction is our #1 priority. We are focused on attention to detail and excellent customer service. Quality without compromise!

Services:

- Custom Trimming & Pruning
- Any Size Removal
- House & Line Clearance
- Hedge Trimming and Shaping
- Stump Grinding
- Crane Service
- 24/7 Emergency Response

Trimming & Pruning: Proper trimming and pruning is the key to promoting healthy tree growth, forming a strong structure and shape of the tree, and also enhancing life. Trimming removes diseased, broken and dead branches. Pruning and shaping your shrubs can maintain size and shape, promote flowering & minimize disease.

Removals: We are able to perform any size removal. We have skilled climbers with expert rigging techniques. Bucket trucks and crane services are available, when necessary.

Stump Grinding: We can remove any size stump. The hole will be backfilled with the shavings and soil. We can remove the excess stump mulch, add top soil and seed for an additional charge.
